

“Load here” Platform

CHAIRKIT
PRERIDE TO PERFORMANCE

EN

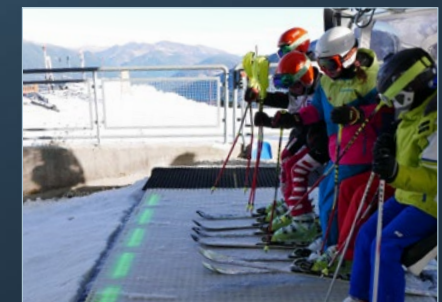

A consistent and well maintained loading platform is of utmost importance to a hassle-free and successful loading of a detachable chairlift. With CHAIRKIT's "LOAD HERE PLATFORM", optimal loading is achieved by means of an integrated and consistent load platform that is adjustable in both width and inclination and utilizes an artificial snow surface that works for all snow conditions. Integrated and changing red/green LED lights provides the visual indicator to the platform's edge and discourages overtravel while red and the chair's departure when green.

- >> An integrated and consistent Loading Platform for Chairkit Detachable Loading Conveyors
- >> Fits / retrofits all new / existing Chairkit Detachable Loading Conveyors
- >> Attaches to conveyor frame
- >> Adjustable width to match loading conveyor
- >> Adjustable inclination for proper rider positioning
- >> Integrated changing red/green LED lights at end of the platform
- >> Optimized artificial snow surface that works for all snow conditions.
- >> Rubber Mats on both sides for a no-slip walking surface
- >> Easy handling and low maintenance

DE

Der neuralgische Punkt zur Beladung von jeder kuppelbaren Sesselbahn genießt in unserem Gesamtsystem höchste Priorität. Mit der „LOAD HERE PLATFORM“, die am Förderband befestigt wird und deren Breite und Neigungswinkel individuell einstellbar sind, sorgt Chairkit für eine optimale Positionierung und damit für einen sicheren Abtransport der Fahrgäste. Integrierte LED's sorgen auch bei etwas schlechteren Wetterbedingungen für klare Verhältnisse und einen sicheren Einstieg.

- >> Befestigt am Förderband
- >> Breite der Plattform einstellbar
- >> Neigung der Plattform einstellbar
- >> Integrierte LED rot/grün
- >> Optimierte Gleitfläche für ideale Positionierung
- >> Einfache Handhabung und Wartung
- >> Ringgummimatten seitlich

“Load here” Platform

CHAIRKIT
PRERIDE TO PERFORMANCE

IT

Il punto nevralgico del carico di ogni funivia accoppiabile riveste nel nostro sistema complessivo la massima priorità. Con la “LOAD HERE PLATFORM”, fissata al nastro trasportatore e con larghezza e angolo di inclinazione personalizzabili, Chairkit assicura un posizionamento ottimale e quindi la sicurezza nel trasporto dei passeggeri. I LED integrati assicurano ottima visibilità e un accesso sicuro, anche in condizioni atmosferiche un po' più critiche.

- >> Fissata al nastro trasportatore
- >> Larghezza della piattaforma regolabile
- >> Inclinazione della piattaforma regolabile
- >> LED integrati rosso/verde
- >> Superficie di scorrimento ottimizzata per un posizionamento ideale
- >> Facilità d'impiego e manutenzione
- >> Tappetini laterali in gomma ad anelli

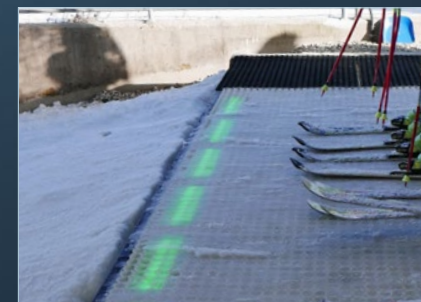

FR

Le point névralgique au niveau de l'embarquement dans tout type de télésiège débrayable occupe une place prioritaire dans notre système global. Avec la «LOAD HERE PLATFORM», qui se fixe sur le tapis roulant et dont la largeur et l'angle d'inclinaison sont individuellement réglables, Chairkit permet un positionnement optimal et donc le transport en toute sécurité des passagers. Une bonne visibilité ainsi qu'un embarquement sans danger sont assurés, même par mauvais temps, grâce aux LED intégrées.

Les avantages pour vous:

- >> Se fixe sur le tapis roulant
- >> Largeur de la plateforme réglable
- >> Inclinaison de la plateforme réglable
- >> LED de couleur rouge/verte intégrées
- >> Surface de glissement idéale pour un positionnement optimal
- >> Manipulation et maintenance faciles
- >> Tapis caillebotis en caoutchouc sur les côtés
