

Starting & Loading conveyors for water rides

CHAIRKIT
PRERIDE TO PERFORMANCE

The innovation for amusement - / water parks, made by the market leader for transport and loading systems:
The „starting & loading conveyors“ bring the tubes with the passengers to where they belong: into the water slides.

Advantages:

- >> simple integration to existing facilities
- >> modular design for minimum space requirements
- >> able to transport single tubes to 6-person rafts
- >> available in stainless steel or galvanized steel with powder coating
- >> for indoor and outdoor applications
